here come the

King and queen

It was a magical time on the night of October 24th, 2007, as 10 contestants vied for the honor of King & Queen during Rowan's week long homecoming events. The annual King & Queen Pageant, hosted by the SGA, and emceed by Derek Jones, Asst. Station Manager of WGLS, Rowan Radio, was featured in four acts.

The evening started off with an elegant song performed by the Student Jazz Quartet. In the first act, the contestants introduced themselves in their Business Wear. In the second act, were judged in their Business Casual Wear, headed up by a performance of Beyonce's hit song "Green Light," performed by Rowan's 3D Dance Troup. Next, the contestants were judged on their public speaking skills while in their Formal Wear.

Before the grand event of the evening, a new segment of the pageant was revealed, the People's Choice Award, in which money was donated to the charity of the winner's choice. This honor was awarded to senior Natalie Agboyibor for charity, the *Lord's Help Cancer Center*.

Then came the big finale of the night: the crowning of the 2007 King & Queen, the biggest honor bestowed upon a Rowan University student. The title of King went to senior Shane Hug, while the honor of Queen went to junior Kara Rex.

Homeco

prof pep rally always a big hit

On October 26th, 2007 Rowan students from all over campus took on the rain and gathered together inside the Chamberlain Student Center pit. These dedicated and devoted students met there just to cheer on their favorite football team.

Performances by our Rowan Cheerleaders and our dance teams kept the crowd entertained. Our Prof mascot made an appearance to get Rowan students pumped for homecoming day. Two captains of the football team and the athletic director spoke briefly to everyone, getting them excited and thanking them for coming out.

The biggest surprise was the destruction of Montclair State University's mascot by our own President Donald Farish. This final hit of excitement was the perfect touch to end the pep rally festivities.

Homecoming 2007 was quite unique to say the least. The overall theme was "A Tribute to the '60s and '67 Summit". It's tradition for the groups who participate in the float building competition to build their floats the entire day and night before the parade. Some students stay up for more than twenty four hours, remaining awake for the building day all the way through the early hours of the parade course. But students who planned on participating in the parade competition this year were faced with a huge obstacle that has never been something to worry about... rain. It poured the entire day that was typically the 'building day', and continued to pour throughout the evening. Nothing could get built. The rain warped any wood that was left outside and the wet and cold weather was not good for morale. Representatives from the organizations met up to discuss whether they wanted to continue participating in the parade or not. A unanimous decision to keep the parade on was decided. The groups went back to their building locations throughout Glassboro and just waited until the rain let up.

Around 2 in the morning, the rain stopped for a long amount of time. Tarps, wood, nails, and screwdrivers were ready to go and the float building was able to officially start. The rain came and went throughout the night, but each group of participants kept their hopes high as they pushed through it. Parade day began early October 27th, 2007, although there technically was not a parade this year, but the students wanted their hard work judged for competition. So in the early morning each group lined up on Carpenter Street, one flatbed behind another. The competition began with Theta Chi and Phi Sigma Sigma's float and skit, "Helter Skelter- The Beatles Are

At Rowan." The weather was considered beautiful up until this point, not a drop of rain came down. But in the middle of the second group's performance, Phi Kappa Sigma and Delta Phi Epsilon's "A Trip To Hollybush: A Candyland Story," the rain poured down once again. This didn't stop any of the groups. The float was already made, the CD was already given to the judges, all the groups had to do now was just give it their all and perform. The third group up was Alpha Chi Rho and Sigma Sigma Sigma's "Scooby Doo and Hollybush Too!" The next performance was Tau Kappa Epsilon and Theta Phi Alpha's "Dreamin' of the Sixties" followed by the Campus Players' "Tohill-a-Vision."

Immediately after the performances, each group was driven to Lot A to destroy and tear down their float entirely. Recycle dumpsters were set up for each form of material: wood, metal, et cetera.

The winners of the competition are not announced until the football game that afternoon, which gave students a chance to get some rest in between activities. Third place went to Tau Kappa Epsilon and Theta Phi Alpha. Second place was awarded to Phi Kappa Sigma and Delta Phi Epsilon. And first place was won by Alpha Chi Rho and Sigma Sigma Sigma. The Campus Players won in the overall competition.

Although the competition between groups is what everyone looks forward to, this year every participant was a winner because they pushed through a difficult obstacle and overcame it. They showed patience, determination, and most of all, pride. The rain didn't let up and neither did anyone else. It may have rained on their parade, but it didn't stop Homecoming 2007 from being a Rowan tradition.

Hollybush

the Whitney Mansion at Rowan University

The history of the Hollybush Mansion began when Thomas Heston Whitney and Samuel A. Whitney were born to Captain Eben Whitney and Bathsheba Heston. It was rumored that Captain Whitney, whom had been shipwrecked in Cape May, met Bathsheba in Glassboro on his way to Philadelphia.

Glass had become a major commodity in southern New Jersey back in the 1800s, and the elder brother, Thomas, went to work for Harmony Glassworks at the age of 14 years old. By the year 1838, young Thomas ended up owning the company. He renamed it the Whitney Brothers Glassworks in 1842 after his little brother Samuel joined him in the business.

Whitney Brothers Glassworks became one of the largest and most successful glass houses in southern New Jersey history, and used a technique to craft glass, ranging in color from olive greens and ambers, to aquamarines. They also made thousands of containers, footed bowls, pitchers, mugs, and "lily pads". Their history and art can now be seen in some of the most popular art museums in the country.

After being a huge success in the glass business, Thomas left the business in the hands of Samuel, and went on to serve two terms in the State Assembly. After a tour of Europe in 1847, Thomas returned to Glassboro to build his mansion on a 100 acre property, and also added his name and the year "1849" on the tower. His brother Samuel and his mother moved into the mansion with him in 1850. In 1853, he married Josephine Allen, and together the couple had six boys and one girl. Thomas died in May 1882 at the age of 70 years old.

Although the Hollybush Mansion fell out of the Whitney family's hands during the years, it went through numerous and eventful changes—especially in the name of education. One of the changes was the naming of Hollybush to the Glassboro Normal School, which housed 236 females, and was dedicated to the training of teachers. Today, the mansion is part of Rowan University, which has six colleges, a graduate school, and serves students throughout New Jersey and overseas.

Hollybush has also made waves in history, most notably in 1967, with U.S. President Lyndon B. Johnson and Soviet Premier Alexei Kosygin's meeting at Hollybush. The President and Soviet Premier met to talk about ways to ease the growing tensions during the Cold War. The meeting was successful, and President Johnson dubbed this occasion as "the spirit of Hollybush."

Hollybush has undergone extensive renovations over the past couple of years, and this past June marked the 40th anniversary of the famous summit in Glassboro.

The Theta Nu Chapter of Theta Chi has been on campus at Rowan University since 1991. This year the brothers of Theta Chi participated in a number of on-campus events. Many of the brothers participated in Kidz-Fest and raised money for various other causes. In the last year, Theta Chi was named the President's Cup champion.

This year's homecoming was a big success. Theta Chi joined forces with Phi Sigma Sigma, and were the first pair to ever build their float backwards! Although they did not win, fun was had by all.

Sigma Sigma Sigma

Sigma Sigma Sigma was founded at Rowan University in 1988. Tri Sigma is friendship. It's strong womanly character and high ethical standards. Our colors are purple and white, our symbol is the sailboat, jewel the pearl, flower the purple violet, motto "Faithful Unto Death." Tri Sigma's Philanthropy is The Robbie Page Memorial, which is named in memory of our past National President's son, who died of Polio in 1951. Tri Sigma's efforts focus on the emotional and developmental needs of hospitalized children. Sigma focuses its efforts around the theme "Sigma Serves Children." This past year Tri Sigma raised money for Alex's Lemonade Stand and also introduced the John Elliot Hero Campaign to Rowan University. We also have held the record for most community service events in the Greek community. Academics are also very important to us. We have the highest GPA on campus. Last spring we paired up with the brothers of Tau Kappa Epsilon and placed 1st in Greek Week, and this past fall we won 1st place in homecoming with Alpha Chi Rho. We have many sister activities and we love spending time with each other. Tri Sigma is all that good and lasting friendship is... only better.

delta phi epsilon

The sisters of Delta Phi Epsilon Beta Mu Chapter are faces you'll see a lot! They're always busy with community service, campus activities, playing intramurals, or just spending time with one another. DPhiE also co-hosts a formal charity ball titled 65 Roses for Cystic Fibrosis. Not only is it an enjoyable time for everyone involved, but it also helps out a great cause because all the proceeds benefit their philanthropy, Cystic Fibrosis.

This homecoming they teamed up with the brothers of Phi Kappa Sigma and brought the board game, Candyland, to life. Although the weather was awful, the group pulled through to place 2nd in the competition. These events and more represent the true meaning of what Delta Phi Epsilon is all about: dedication, pride, and excellence in everything they do.

To the Amazing Tori,

You are truly a miracle, my precious little princess and the light of my life. You have been a constant source of joy, entertainment and give absolute meaning to the cliché “never a dull moment”. I am constantly amazed by your compassion, your kindness, and deep love and devotion for your family and friends. You are an inspiration to us all with your dedication, drive and determination to get the most out of life. I am so very proud of you and there is only one person more proud than I – Daddy. Although he is no longer here in person, his ear to ear smile is shining on you brighter than the sun. I know there are a few specific moments he would like to remind you about – the day you were born, the day you took off those baggy jeans and oversized sweatshirts to reveal the young woman you were becoming, the snow storm on President’s Day week in high school, the day you were accepted to Rowan, and your high school graduation. Your Dad will be at college graduation too - in your heart and mine.

Soon you’ll be off traveling the world, then on to graduate school and no one has a brighter future in their career than you. You’ve been able to accept life’s challenges and unexpected obstacles and have successfully forged ahead. Watching your life unfold gives me great pleasure and I wish you continued success on any path you choose. I will always be here when you need me. You make me so proud I love you very much.

Our love always,
Mom and Daddy
